

WeatherMax Industrial and Aviation Windsocks - Striped

Australian Engineered and Manufactured - Striped red/white Windsocks in WeatherMax Fabric for industrial and aviation applications

DATA SHEET

PRODUCT	NOMINAL CASA SIZE	FABRIC	WIND RATING
WeatherMax Industrial and Aviation Windsocks - Striped	3650x900x225mm	WeatherMax80 (271gr/m2)	135.7km/hr, Region A, Cat 1.5

The Product

The WeatherMax Industrial and Aviation Windsocks - Striped is designed to comply with CASA Manual of Standards (MOS) 139 for Aerodromes. Manufactured from super high strength WeatherMax80 Fabric (271gr/m2), it is UV fade resistant, water resistant and built for extreme environments.

The striped Windsocks are available in red/white, with other combinations available. An extruded pipe is sewn into the mouth of the Windsock, keeping it open and providing additional strength with a secure fastening method. All components are manufactured in Australia to the highest quality standards.
