

# Core Cider | Printed Windsock

## Best suited for:

- Advertising, branding, product promotion etc
- Printed Windsocks are best suited for in-land locations, with moderate weather conditions
- The simpler the design on a one-colour background, generally the better
- Logos or designs to be high resolution: JPEG's, TIFFs or PDFs

## Materials:

- Samba fabric (193 gr/m2) which is long-lasting, fade-resistant and holds the digitally printed designs well
- Double fold, double-stitched mouth and triple-stitched tail
- Custom extruded mouth ring sewn into the mouth of the Windsock keeps the mouth open in all conditions
- Available with or without a Bridle Harness

The design is printed on the Windsock Mouth to Tail and Tail to Mouth - as shown

# Windssocks Australia Overview

**Our aim is to be the leading supplier of Quality Windssock solutions in Australia and the Asia Pacific region.**
