Key Advantages of the WS-007

	Windsocks Australia – WS-007	Competitors Product (as obtained and reviewed)
Manufactured in Australia, 'fit for purpose' and tested in Australian Conditions	✓	? USA, Australia, China
Long Life: Design Life – Warranty	✓ Warranted at 12 months operating on a 'No Quibble' basis. Considerably longer life with inspection	? 3 month – 12 month limited warranty from reputable suppliers. Cheap imports ?
Custom sizes available (if required)	✓	?
Fabric – WeatherMax80 (the standard for longevity)	✓ 2X Strength & Durability of Acrylic with 50% higher Water Resistance	? Unclear. Often laminated PVC or Acrylic. Delamination can cause cracking over a relatively short time period
Extruded Pipe is sewn into the mouth	✓ Designed to keep the Windsock open and provide additional strength with a secure fastening method	✗ Generally no pipe which puts extra pressure on the grommets
Stainless Steel Grommets	✓ 316 Stainless Steel as standard	✗ Brass Grommets which are susceptible to corrosion
Max wind rating	✓ 135.7km/hr, Wind Region A, Cat 1.5 under AS AS/ NZS 1170.2:2011 (we do recommend removing in high winds)	? Unclear / Non Stated or Rated

WeatherMax80 Comparison Strength & Durability of Acrylic with 50% higher Water Resistance

WS-007 | CASA Standard Windsock

Accessories

Designed to be attached to Windsocks Australia's 900mm Illuminated (IWDI) or non-illuminated Windsock Frame

Typically White is the primary Windsock with Yellow the secondary. Other colours also available

Reflective triple stitched tail for assisted night viewing and additional strength

Custom extruded pipe sewn into the mouth of the Windsock provides a secure fastening method

Windsocks Australia Overview
