

Custom Extra-Large Windsocks — Critical Minerals Mine, WA

Critical Minerals Explorer — Western Australia — Heavy Rare Earth Operations

CRITICAL MINERALS

CLIENT

Critical Minerals Explorer — Western Australia

LOCATION

Western Australia

THE CHALLENGE

The heavy rare earth mining operations required custom-specification Windsocks beyond standard catalogue dimensions. The site called for extra-large 2500mm white Windsocks manufactured to non-standard dimensions not available off-the-shelf. With commissioning timelines pressing, the client required expedited custom manufacture and delivery to a remote WA mine site. The WeatherMax80 fabric was specified for its durability in extreme WA outback conditions.

KEY REQUIREMENTS

- Non-standard custom size: 2500×650×225mm (extra-large)
- WeatherMax80 heavy duty white fabric
- Custom manufacture — beyond catalogue specifications
- Expedited production for remote mine site commissioning
- Two units for dual-location site coverage

WHAT WE SUPPLIED

- 2× Custom WeatherMax80 White Windsock 2500×650×225mm (non-standard, custom manufactured)
 - Stainless steel eyelets and reflective tail panel
 - Expedited manufacture and delivery to Perth metro for mine site logistics

OUTCOME

Two custom extra-large Windsocks manufactured to bespoke specifications and expedited for delivery to Perth for onward mine site logistics. Custom dimensions beyond standard catalogue were accommodated through Windsocks Australia's in-house manufacturing capability, supporting critical minerals site commissioning on schedule.

PROJECT AT A GLANCE

2500mm Custom extra-large specification
Custom Non-standard manufacture
Expedited Priority production
WA Critical minerals operations
