

Anti-Static Oil & Gas Windsock Range

Engineered and manufactured to reduce the risk of static build-up where hydrocarbons are present

DATA SHEET

PRODUCT Anti-Static Windsocks	APPLICATION Oil & Gas	MATERIAL Anti-Static Neon	SIZES 900-3650mm
---	---------------------------------	-------------------------------------	----------------------------

Overview

Windssocks Australia is the supplier of choice to Oil & Gas operators around Australia, PNG, Indonesia and increasingly the Middle East. Our Anti-Static Windsocks are engineered and manufactured to reduce the risk of static build-up where hydrocarbons are present. Customers include Shell, Mobil, Esso, Epic Energy, BOC, Ampol and PNG LNG.

Key Features

- Reduces risk of static build-up near hydrocarbons
- Manufactured from Anti-Static 98% AS Polyester P300D (250gsm), 2% Carbon Fibre
- Waterproof, chemical resistant, flame retardant, UV fade resistant
- Available in High Visibility Anti-Static Neon Orange & Yellow
- Vital safety instruments to determine wind direction during gas or chemical release
- Double fold, double-stitched mouth and triple-stitched tail
- 316 Stainless Steel "Rim & Spur" grommets with extruded pipe sewn into mouth
- Reflective triple-stitched tail for night visibility
- Full 316 SS Bridle Harness, Swivel Shackle and Clip where fitted

Industry Deployment

Deployed on oil & gas rigs, LNG processing plants, petrochemical plants and storage areas worldwide. Tested in some of the harshest conditions on earth. Supplied throughout Australia, NZ, PNG, Indonesia, Middle East and Africa.

Standard Size Range

Length	Mouth	Tail	Mounting
1200mm	350mm	175mm	Frame / RAP
1500mm	350mm	175mm	Frame / RAP
1500mm	450mm	225mm	Frame / RAP
1800mm	450mm	225mm	Frame / RAP
2400mm	600mm	300mm	Frame / RAP
3650mm	900mm	250mm	Fixed Frame

Available in Anti-Static Neon Orange or Neon Yellow. Custom sizes on request.

Construction Quality

- Double fold, double-stitched mouth
- Triple-stitched tail with reflective strip
- 316 SS grommets with extruded pipe
- All 316 SS harness components
- Warranted at 12 months "No Quibble"
- Max wind rating: 148 km/hr (Region A)

Why Windssocks Australia?

- Australian Made & Owned - specialist Manufacturer since 2003
- Full Engineering support, Certification & Compliance documentation
- Dedicated product range for Mining, Construction & Remote sites
- Responsive technical support & national logistics capability
- Proven track record with Tier 1 operators across all major industries

About Windssocks Australia

Australia's leading manufacturer of industrial Windsock systems. Designed, engineered and assembled in Australia for the harshest environments - from offshore platforms to remote mining and LNG facilities.
